# RICE EDUCATION CONSULTING

## About Us

Rice Education Consulting, LLC was founded by Rico Rice, M.Ed. Rico decided to start Rice Education Consulting with the mission of helping schools and families create a positive education environment conducive to learning. Later this mission expanded to include organizations that serve children. Today, Rico and his team work with hundreds of students, families, schools and organizations each year. As a once “at risk” student in the Cincinnati Public School system, Rico understands the value of education and how it can change one’s life position.

*Education makes people easy to lead,  
but difficult to drive; easy to govern,  
but impossible to enslave.*

**--Henry Peter Broughan**

## Our Vision

By empowering students and providing them with resources to achieve, the benefits will be shared by students, schools, families and the community, thus making our world a better place.

By providing a conducive learning environment, an enlightened student will become a great person with the ability to make a difference in their community. The student will then pass on this knowledge and experiences to others thereby creating a positive generational effect.

## Benefits

Our services provide an opportunity for students and families to obtain knowledge and resources surrounding post-secondary education, healthy relationships and supplemental education programs that they otherwise may not be exposed to. In addition to the educational workshops and consultations for families, our staff assist in creating an environment where all parties can collaborate effectively to reach their goals.
